# Report: Analysis and Insights of WeRateDogs Twitter Archive
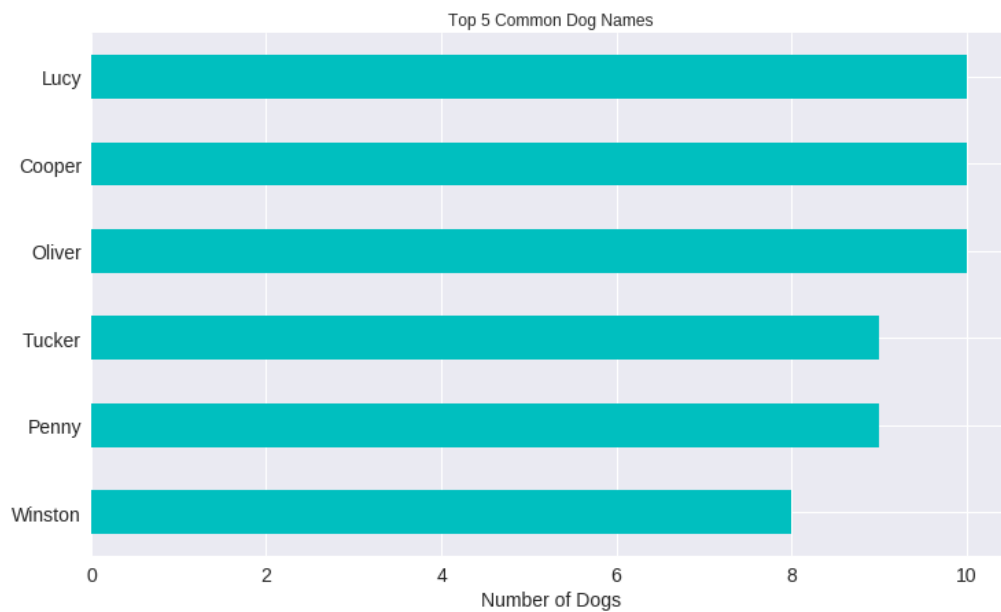

1. Retweets and Favorites Trend Over Time

The number of Retweets show a steady increase over time with higher retweet counts from last few months of 2016. Similar trends follow for Favorites as well. There are intermittent high peaks in between and since May 2017, the number of Favorites has been consistently high.
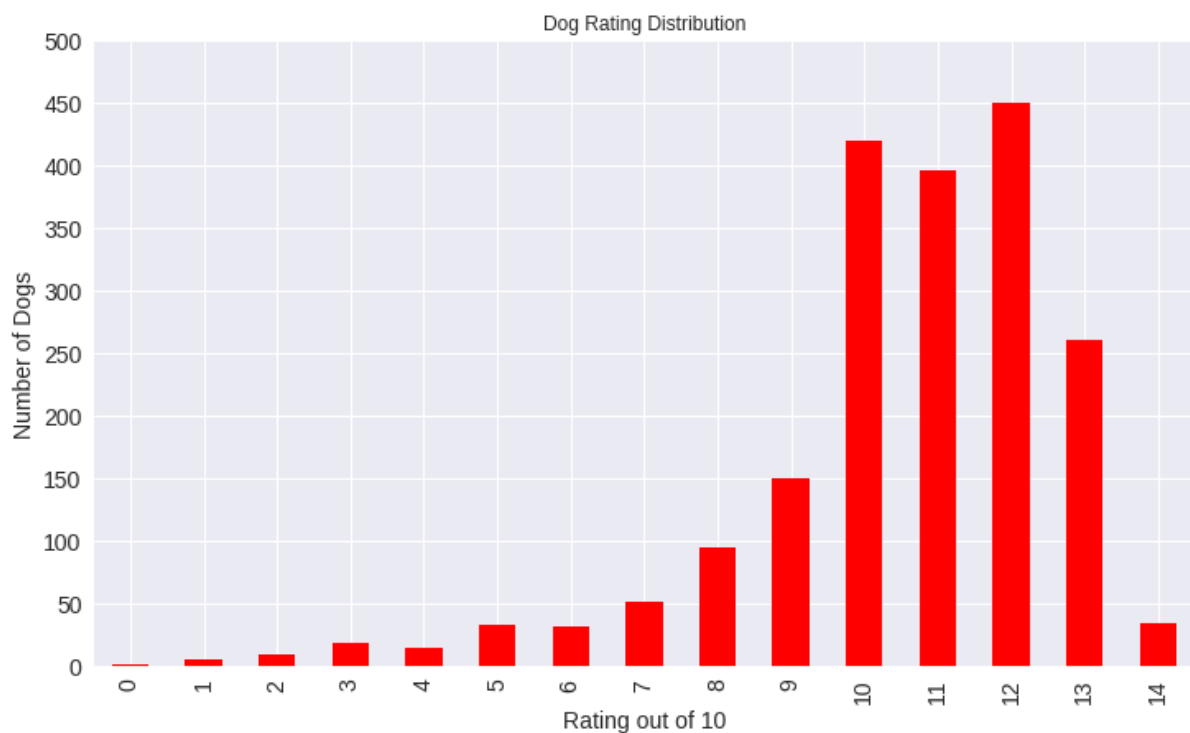

2. Common Twitter Sources

Around 98% of the tweets posted by WeRateDogs were from an iPhone.

3. Top 5 Common Dog Names

The most common dog names are Lucy, Cooper, Oliver, Tucker, Penny and Winston.

4. Dog Rating Distribution

In our dataset, the most common ratings for dogs are 12/10, 10/10, 11/10 and 13/10. The highest rating given is 14/10 which was received by only ~2% of the dogs. Also, the dog rating distribution seems to be skewed to the right, meaning most of the dogs tend to have received higher ratings.
